Responsive to the request for missing parts to the application,

receipt acknowledged by the P&T/PCT on 18 June 2001. See attached
copy of return receipt postcard.

2. Multiple dependent Claim 5, for which an additional charge
has been required, was intended to be cancelled with all other
multiple dependent claims by the Preliminary Amendment submitted
when filing the application. The failure to do so was inadvertent
as is, it is submitted, apparent from The "Remarks" section of
the Amendment. ✓ Applicant submits herewith a further Preliminary
Amendment cancelling Claim 5. Since this is being submitted prior
to the Acceptance of the Application, it is submitted that with-
drawal of the requirement for additional claim fee is in order.

3. With regard to the requirement for a sequence listing in computer readable form in accordance with 37 CFR 1.821-1.825, Applicant submits that the application as submitted has no disclosure of a nucleotide and/or an amino acid sequence. Accordingly, the requirement is not in order and its withdrawal is requested.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Walter H. Schneider". The signature is fluid and cursive, with the first name "Walter" being more prominent.
